

About Our Program:

The Dobson Mini Mustangs Early Childhood Center is a preschool lab serving the needs of young children ages 3-5 at Dobson High School.

As a component of our program, the high school Family and Consumer Sciences students observe, plan and teach lessons to the preschool children under the supervision of our professional staff. The center provides a supportive environment in which the students may refine child development skills learned.

Special Thank You to the Mesa Career & Technical Education Department for providing our facilities.
